Tonogold Resources, Inc.

Footnotes to Financial Statements

For the Three months Ended December 31st, 2020 and 2019
(Unaudited)

Note 1. The Company

Tonogold Resources, Inc., a Delaware corporation, is a result of the Acquisition of Point Loma Partners, Inc. "PLP" by Gamesboro Com, Inc. "GB" (formerly Alliance Trophy Club, Inc.) as of May 1, 2002. The Company changed its name to Tonogold Resources, Inc. in 2004.

The Company maintains mining leases on properties in Nevada and Mexico.

Note. 2. Significant Accounting Policies

Basis of Presentation

The accompanying financial statements of Tonogold Resources, Inc. (or the "Company") for the Three months ended March 31st, 2020 and 2019 are unaudited and, in the opinion of management, contain all adjustments that are of a normal and recurring nature necessary to present fairly the financial position and results of operations for such periods. These financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC").

Cash and Cash Equivalents

The Company considers all highly liquid investments with an original maturity of Twelve months or less as cash equivalents.

Financial Instruments

The carrying value of the Company's financial instruments, including cash and cash equivalents, accounts receivable, accounts payable, and due to related parties, as reported in the accompanying balance sheets, approximates fair value due to the short-term nature of these financial instruments.

Property and Equipment

Property and equipment are stated at cost and depreciated on the straight-line method over the

estimated life of the asset, which is 5 to 10 years.

Mining Property costs

The Company incurs costs on activities that relate to the securing and maintaining of mining leases. All costs related to mining properties are expensed.

Long-Lived Assets

In accordance with ASC 350, the Company regularly reviews the carrying value of intangible and other long-lived assets for the existence of facts or circumstances, both internally and externally, that may suggest impairment. If impairment testing indicates a lack of recoverability, an impairment loss is recognized by the Company if the carrying amount of a long-lived asset exceeds its fair value.

Income Taxes

The Company accounts for income taxes under FASB Codification Topic 740-10-25 (“ASC 740-10-25”) Income Taxes. Under ASC 740-10-25, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under ASC 740-10-25, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

The Company pays certain state minimum taxes that it does not classify as income taxes.

Revenue Recognition

The Company recognizes revenue from the sale of leases at the time the lease is sold and income from consulting agreements as earned. Royalty income is recognized as received. For lease of mining properties acquired prior to the above policy the Company still expenses costs associated with continuing those leases.

Advertising Costs

The Company's policy regarding advertising is to expense advertising when incurred. The Company incurred advertising expense of \$0 during the Three months ended March 31st, 2020 and 2019.

Stock-Based Compensation

In December 2004, the FASB issued FASB Accounting Standards Codification No. 718, *Compensation – Stock Compensation*. Under FASB Accounting Standards Codification No. 718, companies are required to measure the compensation costs of share-based compensation arrangements based on the grant-date fair value and recognize the costs in the financial statements over the period during which employees are required to provide services. Share-based compensation arrangements include stock options, restricted share plans, performance-based awards, share appreciation rights and employee share purchase plans. As such, compensation cost is measured on the date of grant at their fair value. Such compensation amounts, if any, are amortized over the respective vesting periods of the option grant. The Company applies this statement prospectively.

Equity instruments ("instruments") issued to other than employees are recorded on the basis of the fair value of the instruments, as required by FASB Accounting Standards Codification No. 718. FASB Accounting Standards Codification No. 505, *Equity Based Payments to Non-Employees* defines the measurement date and recognition period for such instruments. In general, the measurement date is when either (a) performance commitment, as defined, is reached or (b) the earlier of (i) the non-employee performance is complete or (ii) the instruments are vested. The measured value related to the instruments is recognized over a period based on the facts and circumstances of each particular grant as defined in the FASB Accounting Standards Codification.

Basic and Diluted Net Loss per Common Share

Net Loss per Common Share is computed pursuant to FASB Accounting Standards Codification No. 260, *Earnings per Share*. Basic net loss per share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period. Diluted net loss per share is computed in the same way as for Basic net loss.

Reclassifications

Certain amounts previously presented for prior year have been reclassified. The reclassifications had no effect on net loss, total assets, or stockholders' deficit.

Recent Accounting Pronouncements

The Company has reviewed all recently issued, but not yet effective, accounting pronouncements and does not believe the future adoption of any such pronouncements may be expected to cause a material impact on its financial condition or the results of its operations.

Note 3. Going Concern

The financial statements have been prepared assuming that the Company will continue as a going concern. The Company incurred a net loss of \$0.7 million during the three months ended March 31st, 2020. This raises substantial doubt about its ability to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company's ability to raise additional capital and to successfully implement its business plan and achieve profitability

Management believes that the actions presently being taken and the success of future operations will be sufficient to enable the Company to continue as a going concern.

However, there can be no assurance that the raising of equity will be successful or that the Company will be able to achieve profitability. Failure to achieve the needed equity funding or establish profitable operations would have a material adverse effect on the Company's ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Note 4. Income taxes

The components of the deferred tax asset are as follows:

As at	March 31st 2020	March 31st 2019
Net Operating Losses carry Forward	\$ (7,572,744)	\$ (6,468,988)
Valuation allowance	\$ (7,572,744)	\$ (6,468,988)
Deffered tax Asset	\$ -	\$ -

The Company had available approximately \$18.5 million and \$15.8 million at March 31st, 2020 and 2019 respectively, of unused Federal and California net operating loss carry-forward that may be applied against future taxable income. These net operating loss carry-forwards expire through 2035 and 2025 for Federal and State purposes, respectively. There is no assurance that the Company will realize the benefit of the net operating loss carry-forwards.

SFAS No. 109 requires a valuation allowance to be recorded when it is more likely than not

that some or all of the deferred tax assets will not be realized.

Reconciliation of the differences between the statutory tax rate and the effective income tax rate is as follows at March 31st, 2020 and December 31st, 2019, respectively:

Statutory Rate	35%
Net operating loss carry forward	41%
State taxes, net of Federal Tax	6%
Effective tax rate	0%

Note 5. Project investments

During the year ended December 31, 2013 the Company sold Arizona project and Coors project for \$20,000 and a 3% royalty capped at \$50,000. The total invested on the date of sale was \$33,638 in Arizona project and \$23,940 in Coors project, a total of \$57,578. Any royalties received will be recognized as income when received.

During the December 2018 quarter, the Company decided to withdraw from the Durango option in Mexico in order to focus resources on Comstock, Nevada. As a result, all costs previously capitalized were written off during the that quarter, representing a one-off charge to earnings of \$357,297.

Note 6. Mineral Properties

Currently the Company holds mineral properties in Virginia City, Nevada (Comstock) and Sonora, Mexico.

a) Mexico – Mil-Ler

On December 26, 2014 the Company acquired 100% of Mil-Ler Resources and Energy SA ("MIL-LER"), a Mexican registered entity in an all share transaction where 5.4 million shares¹ required to be issued pursuant to this transaction, were issued in October 2017.

MIL-LER owns mineral rights over approximately 18 square miles 40 kilometers north

¹ The number of shares originally issued being 54.1 were subsequently reduced to 5.4 million following a 1 for 10 reverse share split.

of Hermosillo (the capital of Sonora), Mexico. Exploration drilling over a small area of the total claims during 2011 confirmed the presence of iron ore mineralization. MILLER commenced a small scale operation in January 2013 and mines ore (both hematite and magnetite) which was beneficiated via a simple two stage crushing and dry magnetic separation process producing approximately 15,000 tonnes of iron ore product which is transported by road to main port at Guaymas (180 kilometers from site) where the product is shipped and sold to China under an off-take agreement. Operations ceased at the end of 2014 when the iron ore price fell. The project remains on care-and-maintenance.

As a result of the fall in the price of iron ore and the subsequent cessation of operations, the Company decided to write down its investment in Miller to \$1 at December 31st, 2015

b) *Mexico - Duranga*

On January 16th, 2018, the Company announced that it has entered into a binding agreement with a private Mexican entity which provides Tonogold an exclusive right (but not obligation) to acquire 100% interest in the Claudia, Promontorio and Montoros gold/silver properties located in Durango, Mexico (the “**Projects**”) for total consideration of \$7.3 million in cash. Tonogold paid \$100,000 on signing the agreement in January, which provided Tonogold with a 12-month option. Tonogold elected not to exercise the Option and therefore withdrew from this arrangement during the December 2018 quarter.

c) *Nevada - Comstock Mining (joint venture)*

- i. On October 5th, 2017, the Company announced that it had secured an Option Agreement with Comstock Mining Inc. which amongst other things, provided Tonogold an exclusive right to earn a 51% controlling interest in 1,162 acres of mining claims in the highly prospective Comstock Lode region in Virginia City, Nevada, which includes the Lucerne Deposit, located in the Storey County. This agreement was superseded in January 2019 when a new agreement was entered into by the parties. *See Comstock Acquisition below.*
- ii. In October 2017, Tonogold paid Comstock \$200,000 for an initial 6-month option,

which was permitted to be extended at Tonogold's election to enter Stage Two of the agreement by making a further payment of \$2 million to Comstock prior to the expiry of the initial 6-month period.

- iii. Up to December 31st 2018, Tonogold has incurred approximately \$2 million of expenditures directly in advancing the project (e.g. due diligence program, property holding costs). In order for Tonogold to earn a 51% controlling interest it will be required to invest a further \$18 million (\$20 million in total) through to April 2021 on work programs developed and managed by Tonogold, on the Lucerne Properties; the objective being to produce a commercially and technically robust mine plan and feasibility study to enable profitable mining on the properties to commence. It should be noted, that the \$20 million expenditure threshold is not a commitment, but a requirement to earn the 51% interest in the Lucerne Properties.

d) *Nevada - Comstock New Agreement*

- i. On January 28th 2019, Tonogold announced that it had entered into a comprehensive and binding agreement (“New Agreement”) with Comstock Mining Inc (“Comstock”) which, on Closing will provide Tonogold with, amongst other matters, 100% of the Lucerne project (including the Lucerne gold/silver deposit) and their exploration claims covering, amongst others, those over the historically significant Gold Hill and Virginia City area in Storey County, Nevada (“**Comstock Acquisition Assets**”).
- ii. This New Agreement leverages off the agreement entered into during October 2017. The October 2017, agreement will be superseded by the New Agreement once completion has occurred.
- iii. Under the New Agreement, Tonogold has agreed to pay Comstock total consideration of \$15 million, made up as follows:
 - \$11.5 in cash (the “**Cash Component**”) and
 - \$ 3.5 million in equity (the “**Equity Component**”)
- iv. A non-refundable deposit of \$1 million was paid on January 23rd 2019 (on signing the New Agreement), and a further \$1 million was paid on March 15th, with both amounts

being applied toward the Cash Component. The remaining \$8.5 million of the Cash Component (less any additional non-refundable deposits that may be made prior to Closing) will be payable at Closing.

- v. Completion of the transaction will occur once Tonogold has formally secured the funding required. Under the New Agreement, Completion is scheduled for November 2019.
- vi. In addition, Comstock will be granted a Net Smelter Return Royalty of 1.5% over future production from Lucerne.
- vii. The \$3.5 million Equity Component was satisfied by Tonogold issuing a Redeemable Convertible Preference Share (“CPS”) during the June 2019 quarter as announced by Tonogold on May 23rd 2019 – see Note 7g
- viii. EXPANDED LAND POSITION

Under the October 2017 agreement, Tonogold’s right to acquire 51% of the Lucerne project comprised some 1,200 acres of mining claims within Storey County. The New Agreement provides Tonogold 100% control over the 1,200 acres being the Lucerne project plus 100% exploration, development and mining rights (via a lease arrangement) over Comstock’s remaining mining claims in Storey County (totaling just over 2,800 acres) (“**Tonogold’s Expanded Land Position**”), which cover major areas of the highly significant past Comstock Lode producers to the north of Lucerne, including the Belcher deposit which operated between 1863 and 1916 (1.9 million ounce AuE producer), Crown Point (1.8 million AuE ounces), Consolidated Imperial (1.1 million AuE ounces).

The provisions in respect of Tonogold’s Expanded Land Position of the New Agreement enables Tonogold to initiate and roll-out a significant new leg to its regional strategy, which will be the focus of a systematic and aggressive exploration program commencing as soon as possible. The results of this program are expected to substantially change (improve) the already significant value accretive nature of our acquiring 100% of Lucerne.

- ix. ACCESS TO AND USE OF THE PROCESS FACILITIES

Under the October 2017 agreement, Tonogold had an option to acquire a 51% interest

in the process facility, plant, infrastructure and 983 acres of mining claims to the west of Lucerne (known as the American Flats properties) by paying Comstock \$25 million. An alternative arrangement was negotiated and agreed between Comstock and Tonogold and announced to the market in April 2018, which provided Tonogold the right to use the American Flats property for a fee of \$1 per ton of material treated plus \$1 million per annum.

Under the New Agreement, Comstock shall retain ownership of the American Flats Property but provides Tonogold an option for exclusive operating rights via a 20-year lease to use, operate and manage the American Flats properties, with Tonogold paying Comstock \$1 per ton of material treated (variable rate) plus \$1 million per annum (fixed rate) commencing once a production decision is made, but with the following adjustments:

1. The variable rate shall reduce to \$0.50 per ton once the cumulative payments (both fixed and variable) made to Comstock under this arrangement have reached \$15 million
2. The variable rate shall reduce to \$0.25 per ton once the cumulative payments (both fixed and variable) made to Comstock under this arrangement have reached \$25 million (but with a minimum payment of \$100,000 per quarter)
3. The fixed rate of \$1 million pa shall be terminated once the cumulative payments (both fixed and variable) made to Comstock under this arrangement have reached \$25 million

x. HOLDING COSTS

1. Tonogold shall be responsible for meeting (or continuing to meet) the carrying costs (lease costs, permits, insurance, annual claim fees, property tax, etc.) associated with the areas covered by the New Agreement, including:
2. The Lucerne Project - \$1 million pa
3. The American Flats Property \$1 million pa, and
4. The Expanded Storey County Claims - \$0.1 million pa (new commitment)

5. The total holding costs to be met by Tonogold pursuant to the New Agreement is estimated at \$2.1 million per year, of which over \$1 million per year having been Tonogold's responsibility since the October 2017 agreement.
- xi. Comstock will be granted a Net Smelter Return royalty of 3% from production from the Tonogold Expanded Land Position Area, reducing to 1.5% after the first year of production.
- xii. Details of payments made in respect of the acquisition and in respect of project expenditure, is provided in the table below.

Balance sheet March 31st 2020	\$15,000,000	\$ 9,688,226	\$ 24,688,226

#1 The \$5,275,000 deferred element of the total consideration (which was due to be paid by July 2020) was replaced during the quarter with a \$5.475 million Convertible Loan Note. \$1 million is due to be paid in October 2020 with the remaining \$4.475 million maturing in September 2021. CMI have the right at that time to request shares in lieu of cash at 40 cents per share (11.2 million shares).

- xiii. The agreement between Tonogold and CMI which led to the deferred consideration being replaced by a Convertible Note, considerably reduced the amount to be paid by Tonogold during 2020 – freeing up funds to focus on drilling. As part of this agreement, Tonogold agreed to pay CMI \$2.25 million as a pre-payment toward the reimbursable costs for 2020. Of this \$1.75 million was funded during the March quarter with the remaining \$500,000 funded in April. A prepayment of \$1.27 million is recorded in the balance sheet at March 31st 2020.xiii

- i. During the March 2020 quarter 5,500,000 new shares were issued as a result of the exercise of warrants.

- j. Share Subscription Account. \$523,289 had been received by the Company in respect of the exercise of warrants but the shares (8.7 million) have yet to be issued.

Note 8. Convertible Loan Notes

- a. During the March quarter the Company:
- i. Raised \$2.7 million of cash through the issue of Convertible Notes, and
 - ii. Incurred interest charge of \$0.24 million

b. CLN1

The Company issued a series of loan notes (“CLN1”), which were convertible into common shares with a principle balance of \$950,000 at June 30, 2015. During 2017, the Company secured the agreement of the holders of CLN1 to convert the principle balance plus accrued interest to August 31st 2017 (\$262,000) into ordinary shares at a conversion price of 5 cents per share. As a result, 24,239,994 shares were issued during October 2017 (see Note 7 above). This agreement paved the way for a second series of loan notes (CLN2) to be issued to help fund the option payments in respect of Lucerne and Durango, the due diligence programs in respect of those projects and to fund general working capital requirements.

c. CLN2

During 2016, the Company launched a raising through the issue of a second series of Convertible Loan Notes (“CLN2”), convertible into Common shares at 5 cps. Since the launch through to March 2019, an aggregate of \$2.2 million was raised from CLN2. During the December 2017 quarter, \$20,000 of principle and \$2,769 of accrued interest were converted into Common shares at 5 cents per share (455,387 shares). These notes accrued interest at 12% per annum (which was capitalized).

In addition, free attaching Warrants were granted to investors of CLN2 as follows:

- Subscribers to CLN2 who invested in 2016 were granted 40-warrants for each \$1 invested in CLN exercisable at 5 cents per share expiring July 31st, 2018 (10.1 million warrants were issued)
- Subscribers to CLN2 who invested after 2016 were granted 15-warrants for each \$1 invested in CLN exercisable at 9 cents per share expiring July 31st, 2018 (29.4 million warrants were issued)

These funds raised through the issue of this Loan Note provided the financial resources required to complete the initial phase of the Comstock Joint Venture and toward the requirements for this year (see Mineral Properties Note 6 above).

During the December 2018 quarter, \$288,122 (\$233,000 (principle) plus \$55,122 (accrued interest)) was converted by the holders into Shares at 5 cents per share with **5,762,441** new shares issued.

During the December 2018 quarter, the remaining \$1,959,766 of principle plus accrued interest of \$275,221 was converted into Shares at 5 cents per share with **44,700,060** new shares being issued during December 2018 leaving a zero balance at that date.

d. CLN3

Tonogold launched a new Convertible Loan Note (CLN3) during the December 2018 quarter. A summary of the key terms were as follows:

- Interest 12% pa compounded monthly and capitalized
- Maturity – December 31st, 2021
- Convertible into fully paid shares in Tonogold at the holder's option at any time prior to maturity at 10 cents per share
- The granting of 10 free warrants for each \$1 invested in the Note, exercisable at 20 cents per share prior to their expiry (December 31st 2021)

As CLN3 had been previously closed, no funds were received during March quarter. Accrued interest for the March quarter totaled \$134,400.

e. CLN4

During the June 2019 quarter, Tonogold launched Convertible Loan Note series 4 ("CLN4"). A summary of the key terms are as follows:

- Interest 12% pa compounded monthly and capitalized
- Maturity – December 31st, 2021
- Convertible into fully paid shares in Tonogold at the holder's option at any time prior to maturity at 18 cents per share
- The granting of 5.56 free warrants for each \$1 invested in the Note, exercisable at 25 cents per share prior to their expiry (December 31st 2021)

During the March 2020 quarter, \$2.6 million had been received from investors in respect of CLN4. Accrued interest for the March 2020 quarter totaled \$102,500

Note 9. Directors unpaid Remuneration

The current Directors of the Company had previously agreed to defer payment of their entire remuneration entitlements since June 2014. As at August 2016, the amount owing to the current directors amounted to \$1,261,000 (gross), and which had been accrued. In order to assist the Company in securing the agreement of the CLN1 holders to convert their entitlements into ordinary shares (see Note 8 above), all the Directors agreed to write off 50% of their entitlements as at August 31st, 2016 and for the remaining 50% (after the deduction of withholding tax) to be converted into ordinary shares at 5 cents per share. This required the issue of 6,800,000 shares, which were issued during October 2017.

Note 10. Warrants issued for services

As at March 31st 2020 the Company had issued and outstanding 12.5 million warrants for services. Details of warrants issued to executives and directors are as follows:

Further details of the Warrants are provided under Note 14 below.

Note 11. Employment agreement

In June 2013 the Company entered into an employment agreement with the Chief Executive Officer that includes managing the Company's interests. The contract was conditional on raising capital of between \$360,000 and \$675,000, which was satisfied within the time frame established. Remuneration was set at \$192,000 per year (reviewable annually) plus the issue of warrants.

Mr. Travis Miller, Mil-ler Recourses and Energy SA de CV ("Mil-ler") largest shareholder, was appointed to the board as an executive director on December 26, 2014 upon executing a Closing Agreement with Mil-Ler (see Note 13). Mr. Miller's contract of employment included terms which included that he would be based in Hermosillo, Mexico and shall receive an annual remuneration of \$180,000 (reviewable annually) plus the issue of warrants.

Note 12. Investment in Persistence Data Mining Inc.

Persistence Data Mining, Inc. (PDMI) was formed as a Nevada corporation in February 2012 with Tonogold acquiring 750,000 shares (2.7%) of the company. PDMI is an AgTech development company.

Note 13. Agreement with Mil-Ler Resources

On October 18, 2013, Tonogold Resources, Inc. entered into an exclusive option agreement with

Mil-Ler Resources and Energy SA ("MIL-LER") a private Mexican mining and Exploration Company to acquire up to 34% equity interest in MIL-LER in two tranches of \$5 million each for a total investment of up to \$10 million. On February 18, 2014, the option was extended until June 28, 2014 and Tonogold obtained the right to purchase shares from existing shareholders that would bring its ownership in Mil-Ler to 51% for a payment of \$6 million plus a minimum of 59 million shares in Tonogold (subject to raising scale in the event that Tonogold's share price is above 10cps at that time). On May 8, 2014 Tonogold obtained the right to acquire 100% upon issuance 54,100,000 Tonogold shares.

MIL-LER owns mineral rights over approximately 18 square miles 40 kilometers north of Hermosillo (the capital of Sonora), Mexico. Exploration drilling over a small area of the total claims during 2011 confirmed the presence of iron ore mineralization. MIL-LER commenced a small scale operation in January 2013 and mines ore (both hematite and magnetite) which was beneficiated via a simple two stage crushing and dry magnetic separation process producing approximately 15,000 tonnes of iron ore product which is transported by road to main port at Guaymas (180 kilometers from site) where the product is shipped and sold to China under an off-take agreement. Operations ceased at the end of 2014 when the iron ore price fell

The parties executed a Closing Agreement on December 26, 2014. The 54.1 million shares required to be issued pursuant to this transaction, were issued in October 2017.

As a result of the fall in the price of iron ore and the subsequent cessation of operations, the Company decided to write down its investment in Mil-ler to \$1 at December 31st, 2015

TOTAL	\$ 592,219	\$ 400,503

Total expenses for 2020 were higher than the corresponding period of 2019, reflecting higher corporate and operational activity (mainly legal and investor relations costs).

Interest Expense

Interest expense \$237,000 for the three months ended March 2020 compares to \$78,000 for the corresponding periods for 2019. The increase is the result of an increase in the Convertible

Loan Notes outstanding over this period.

Provision for Income Tax

We incurred taxable losses; consequently, no liability to taxation was incurred during the Three months ended March 31st, 2020 and 2019.

Working Capital

As of March 31st, 2020 the Company had cash of \$392,000. The Company had a **positive** working capital position of \$9 million at March 31st, 2020 compared to \$10 million at December 31st, 2019. The Company incurred a net loss from continuing operations of \$0.8 million for the three months to March 2020 and \$0.5 million for the corresponding period of 2019.

At March 31st, 2020 the Company had a total principle balance of \$8.7 million outstanding in respect of the convertible loan notes compared to \$6.0 million at December 31st, 2019.

The Company may need to raise additional funds during the next three months in order to sustain our business. Additional funds may not be available, and we cannot predict what revenues and cash flow from operations we can expect during the next Three months.
